AUTOMATIC SLIDING GATE

RESIDENTIAL SLIDING

We can supply, deliver and install all types of sliding, manual or automatic gates. Our ranges include wooden and decorative steel. High quality handmade metal gates are available from our standard range or manufactured to suit your specific design requirements. All are manufactured by a local blacksmith company who have specialized in forging gates & railings for over ten years.

INDUSTRIAL GATES

Dwit specialty making for industrial Sliding gate for any types of design finish for slg blasting , animal paints , Making all types of gate like stainless steel gate , M S gate, Galvanized gate, hot deep galvanized gate. We can supply, deliver and install all types of sliding, manual or automatic Industrial heavy-duty Sliding gates.

TELESCOPIC SLIDING GATE

The special twin-disk anti-crushing clutch, in oil-bath. Use frequency. 100%. The event of power failure, the key-operated release device makes it possible to open and close the gate manually. High resistance pressure cast aluminium body ensure a very long life. Obstacle detection causes the gate movement to stop if anyobstacle is detected.

CANTILEVER SYSTEM

DWIT Automation offers cantilever system for gates, someplace practically not possible bottom track that time uses cantilever system for the gate. A Cantilever Sliding Gate will remove the need for tracking along the length of the opening. Cantilever gates are quieter than the traditional floor track systems.

AUTOMATIC SWING GATE

SWING GATE

We are manufacturer of All types of Swing gate. Any types of design with Automation System We have a range of swing gate operators which are specifically for residential use and industrial Use Special Motor Available in Continues use in Industrial Purpose and heavy duty uses.

AUTOMATIC SLIDING DOOR

SLIDING DOORS

Top quality products for automatic doors of all types - bi-folding, hinged and sliding. We offer a versatile range of automatic door automation systems for sliding doors, with our new slimline A100 operator, the range has expanded further. Our swing door automation is a low energy operator and also complies with DDA regulations.

AUTOMATIC SWING DOOR

SWING DOORS

It is particularly suitable to automate doors in Hospitals, Hotels, Shops, Banks, Offices, Restaurants, Supermarkets etc It is suitable for most types of doors whether existing or retrofit, internal or external, with one or two wings. The electronic control unit enables all adjustments to be made easily using the digital multifunction selector thus cutting down installation time.

AUTOMATIC BOOM BARRIER

ELECTROMACNICALY BARRIERS

DWIT Automation use electromacnical barriers and hydraulic barriers and also manufactures manual barriers. As par Client requirements, the systems work on the basis of infrared technology use heavy duty cycle torque Motor with the 100% duty cycle. The Feature of Barriers like soft landing, antycrush systems, speed is adjustable for some models both speed fast or slow can adjust at the time of installation.

HYDRAULIC BARRIERS

Boom Barriers are a new technology for traffic control solution for all sites that are experiencing a high frequency of vehicle traffic the entry/exit which you need to be controlled. DWIT uses hydraulic barriers and also As par Clint requirements, the system works on the basis of infrared technology use heavy duty cycle torque Motor with the 100% duty cycle.

MANUAL BARRIERS

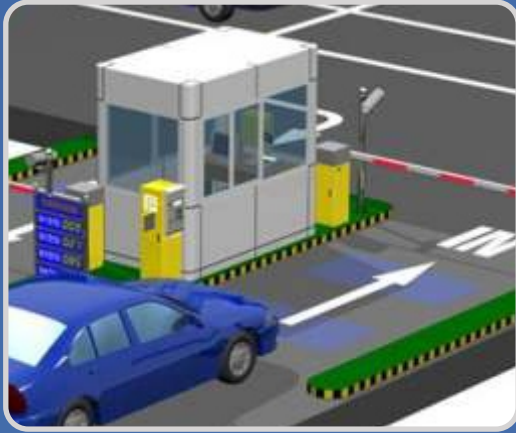

DWIT Automation Also Supplying manuals Barrier as par Clint Requirement and design.

INDUSTRIAL BARRIERS

DWIT Automation Offer Industrial electromechanical barriers and hydraulic barriers and also manufactures manual barriers. As par Clint requirements, the system works on the basis of infrared technology use heavy duty cycle torque Motor with the 100% duty cycle.

It helps in efficiently managing vehicle traffic flow in residential, commercial and industrial zones & car parks.

BOLLARDS

BOLLARDS

the technical and mechanical mind for product development and the marketing mind capable of knowing and satisfying the needs of the most demanding customers.

INDUSTRIAL RAPID DOORS

RAPID DOORS

High Speed Doors are suitable for Internal use to optimize the flow of traffic improves room conditions by maintaining Dust - Temperature and Hygiene within the premises, made of galvanized steel with interchangeable polyester curtains and transparent DVC Available in colours.

TRIPOD / TURNSTILE

TRIPOD TURNSTILES

Faac's new Twister turnstile is designed for passage selection in high-traffic areas. Its stainless steel construction makes it ideal for marine, subway and railway stations; plus sports facilities areas and wherever people flows need to be regulated, while optimizing entrance and exit operations.

FLAP BARRIERS

FLAP BARRIERS. SINGLE AND DUAL CORE

We are Supply Faac make Flap barriers

AUTOMATIC ROLLING SHUTTERS

STAINLESS STEEL ROLLING SHUTTER

We are the leading manufacturers and suppliers for Stainless Still Shutter Grade 304/316 of fine quality in Mumbai. They are installed in shops, malls, garages, offices and various other places. These rolling shutters are manufactured and designed by our team using best quality aluminum, steel, cast iron and other materials that are sourced from treated and reliable dealers.

AUTOMATIC ROLLING SHUTTERS

ALUMINIUM ROLLING SHUTTER

We are the leading manufacturers and supplier Aluminium Rolling Shutter of fine quality in mumbai. They are installed in shops, malls, garages, offices and various other places. These rolling shutters are manufactured and designed by our team using best quality aluminum, steel, cast iron and other materials that are sourced from treated and reliable dealers.

PERFORATED ROLLING SHUTTER

They are installed in shops, malls, garages, offices and various other places. These rolling shutters are manufactured and designed by our team using best quality aluminum, steel, cast iron and other materials that are sourced from treated and reliable dealers.

POLYCARBONATE ROLLING SHUTTER

We are the leading manufacturers and suppliers for Polycarbonate Rolling Shutter of fine quality in mumbai. They are installed in shops, malls, garages, offices and various other places. These rolling shutters are manufactured and designed by our team using best quality aluminum, steel, cast iron and other materials that are sourced from treated and reliable dealers.

AUTOMATIC ROLLING SHUTTERS

GRILL TYPE ROLLING SHUTTER

We are the leading manufacturers and suppliers for Grill Rolling Shutter of fine quality in mumbai. They are installed in shops, malls, garages, offices and various other places. These rolling shutters are manufactured and designed by our team using best quality aluminum, steel, cast iron and other materials that are sourced from treated and reliable dealers.

COLLAPSIBLE SHUTTER GATE

We are the leading manufacturers and suppliers fo Shutter Gate of fine quality in mumbai. They are installed in shops, malls, garages, offices and various other places. These rolling shutters are manufactured and designed by our team using best quality aluminum, steel, cast iron and other materials that are sourced from treated and reliable dealers.

PUFF ROLLING SHUTTER

We are the leading manufacturers and suppliers for Aluminium Puf Rolling Shutter of fine quality in mumbai. They are installed in shops, malls, garages, offices and various other places. These rolling shutters are manufactured and designed by our team using best quality aluminum, steel, cast iron and other materials that are sourced from treated and reliable dealers.
